

Media Plan 2022

Focus of the journal

Packaging is a Czech and Slovak trade journal dealing with the issues of packaging solutions, machinery and technologies, of printing itself, printing and finishing techniques, logistics and transport.

Packaging is issued every two months in a circulation of about 3,500 copies. Those issues directed towards the dates of trade fairs tend to higher circulations. **Packaging** is distributed by post according to a constantly updated and replenished directory straight to the management (sales directors, marketing directors, and other decision-makers) of companies whose activities relate to the above-mentioned subject matter.

The **Packaging's** directory includes, among others, packaging manufacturers (made of paper, plastics, wood, glass, sheet metal, etc.) incl. paper producers; manufacturers of packaging machinery, lines, accessories and technologies; producers of plastics processing technologies; packaging consumers (all major companies from the food, consumer goods, pharmaceutical and automotive industries as well as their subcontractors, etc.); commercial packaging and jobbing printers as well as their suppliers; manufacturers and suppliers of marking, coding and identification equipment; paper and wrapping materials wholesalers; logistic centres; manufacturers and importers of cars and automotive accessories; manufacturers and distributors of handling equipment; advertising agencies; trade fair organizers; and also vocational schools from the relevant field.

The specific choice of recipients to the magazine from above-mentioned branches as well as their professional status and leadership create very good prerequisites also for commercial exploration of the journal in terms of advertising and promotion in the Czech Republic and Slovakia.

Multimedia Packaging is a twin to the printed edition, enriched with the **functionality** of immediate **links** to advertiser sites, **sound** capabilities of the site or **video** playbacks even in high quality. The multimedia version allows downloading from the web to the offline version of a whole issue or only individual pages (PDF) as well as index search. An **archive** of Packaging previous editions is also stored on the web portal.

News are updated **regularly on a weekly basis** incl. images, web addresses are hyperlinked. News are taken and edited into readable form from domestic but mainly foreign sources, professionally translated, mainly from German and English. News are also archived on the web.

Banners are placed on the web portal. As you browse the content of the website, the banners remain displayed. There are **two main and several side banners**. You can also place so-called **skin banner** on the web, which is a banner framing the web portal from three sides. We will send technical parameters for skin banner upon request. Other banners can also be placed in the News template.

Videos are **changed weekly** and posted on the portal. These are mainly **product or technological developments in the field of packaging, packaging solutions, transport and logistics**. They are picked-up from all around the world. These videos also have an archive on the web.

Advertiser Info, Contacts Detailed information for those interested in advertising (Advertiser Info), editorial staff and relevant editor contacts (Contacts) are also posted on the website (at the top). Advertiser information can be conveniently downloaded from the web.

News and videos

News

The News template is sent via e-mail. It is dispatched regularly to about 5,000 addresses every Monday. News are translated mainly from English and German from foreign trade servers and press. If possible, they are also shortened and rid of irrelevant information. However, it is also possible to publish a (paid) PR statement. The extent is set to approximately 1,000 characters + 2 images (JPEG).

You can also place a banner (static only) into the News template. Its width is 250 px, of any height up to 500 px.

Only the first few lines of the news are published in the template and then a “Read more” link. This hyperlink leads from here to the Packaging website, where an entire article is displayed.
